

Email: 28 April 2014

The Hon Martin Dixon MP
Minister for Education
Parliament House
VIC 3002

28 April 2013

Dear Mr Dixon:

Re Signing up to Gonski

I am writing to you on behalf of Graduate Women Victoria, an NGO devoted to working for a society in which all children have access to an affordable quality education.

As Minister for Education you have a particular responsibility to ensure that Victorians -- parents, taxpayers, teachers, concerned citizens, everyone who understands the crucial value of primary education -- are not deprived of the opportunity that the Gonski reforms offer to make a real difference to the educational opportunities of so many of Victoria's children.

Gonski may not be perfect, but it is the best offer of education funding that has been around in a long time --and one that's not likely to come again in the near future. Don't let us down -- don't let's see Victoria care less for its children's education than New South Wales,

Yours sincerely

Dr Jennifer Strauss AM
President, Graduate Women Victoria
